National Coordinating Council for Medication Error Reporting and Prevention

The **National Coordinating Council for Medication Error Reporting and Prevention (NCC MERP)** is an independent body comprised of [22 national organizations](#).

In 1996, USP spearheaded the formation of the National Coordinating Council for Medication Error Reporting and Prevention. Leading national health care organizations are, for the first time, meeting, collaborating, and cooperating to address the interdisciplinary causes of errors and to promote the safe use of medications.

USP is a founding member and the Secretariat for NCC MERP.

Is your organization interested in membership? [Find out more.](#)

Ambulatory Care

Ambulatory Care Accreditation - Fast Track

The Joint Commission established the Ambulatory Health Care accreditation program in 1975 to encourage quality patient care in all types of freestanding ambulatory care facilities. [Read more.](#)

About the Foundation

Our Mission

(Approved by the NPSF® Board January 2003)

Improve the Safety of Patients

We accomplish this through our efforts to:

- Identify and create a core body of knowledge;
- Identify pathways to apply the knowledge;
- Develop and enhance the culture of receptivity to patient safety;
- Raise public awareness and foster communications about patient safety; and
- Improve the status of the Foundation and its ability to meet its goals.

NPSF can make a long term, measurable difference by serving as a central voice, and

NPSF will lead the transition from a culture of blame to a culture of safety.

Our Vision

(Approved by the NPSF® Board January 2003)
